AUSAD CREATIVES

500 AI CONTENT PROMPTS

A practical prompt library for planning, writing, designing, producing and growing as a content creator.

THE CREATOR GROWTH KIT · ASSET 02
25 categories · 500 original prompt frameworks
Designed for customisation, human review and real-world use.

PREMIUM EDITION · ENGLISH · VERSION 1.0

AUSAD CREATIVES

HOW TO USE THIS PROMPT LIBRARY

This library helps creators move from a vague idea to a clear, useful piece of content. It covers strategy, research, ideation, writing, production, design, community, analytics, monetisation and workflow.

Before you start

1. Replace bracketed fields such as [NICHE], [AUDIENCE] or [TOPIC] with your own details.
2. Give the AI relevant context, examples and constraints.
3. Ask it to clarify missing information instead of guessing.
4. Check facts, dates, product details, platform features and prices against current reliable sources.
5. Edit the result so it reflects your own judgement, voice and experience.

Prompt formula

Role + Context + Task + Constraints + Output format + Quality check. These are starting frameworks, not magic commands; quality depends on the brief and your review.

Important usage principles

Do not publish AI output without review. Do not invent credentials, customer testimonials, statistics, product features or personal experiences. Respect copyright, privacy, consent, platform rules and professional boundaries. For sensitive or high-stakes topics, use qualified sources and expert review.

Customisation example

Generic: “Give me content ideas.”
Specific: “Generate 12 short-form video ideas for beginner smartphone users who want to improve phone productivity on a budget. Each idea must solve one practical problem, include a truthful hook, a demonstration and a CTA. Keep production possible with one phone.”

Inside this library

25 categories × 20 prompts each = 500 prompts. Save your strongest edited outputs in your own prompt workspace.

01 / STRATEGY & POSITIONING

20 prompts · Replace bracketed fields with your own details.

001.

Act as a senior content strategist. Help me define a focused niche for [CREATOR/BRAND] using my skills [SKILLS], interests [INTERESTS], audience clues [AUDIENCE CLUES], and goals [GOALS]. Give me three viable niche options, their trade-offs, and one 30-day test for each.

002.

Create a one-sentence positioning statement for [CREATOR] serving [AUDIENCE]. Explain the audience problem, promised value, distinctive angle, and what the creator should avoid claiming.

003.

Build a practical creator strategy for [NICHE] on [PLATFORMS]. Include audience, content promise, pillars, formats, publishing capacity, and a 30-day learning plan. Ask for missing details rather than inventing them.

004.

Compare these niche ideas: [IDEA A], [IDEA B], [IDEA C]. Score each for audience need, creator credibility, sustainable topic depth, competition, and monetisation pathways. State assumptions and recommend a low-cost validation test.

005.

Turn my background [BACKGROUND] and skills [SKILLS] into three creator positioning angles that are useful to [AUDIENCE]. Avoid exaggerated authority; distinguish lived experience from professional expertise.

006.

Write a clear creator mission statement for [NICHE] that focuses on the audience's progress rather than the creator's popularity. Provide five alternatives with different tones.

007.

Create a brand promise for [CREATOR] that is specific, believable, repeatable, and easy to understand. Include proof needed to support it and claims that would overpromise.

008.

Identify the strongest differentiating angle for a creator in [NICHE]. Consider audience, format, perspective, depth, examples, and delivery—not unsupported claims of being the best.

009.

Build a competitor content audit template for [NICHE]. Include positioning, audience, recurring topics, formats, strengths, gaps, and ethical ways to differentiate. Do not copy their wording or creative work.

010.

Create a one-page creator strategy summary from these details: [DETAILS]. Include niche, audience, problem, promise, pillars, voice, formats, cadence, CTA, and success measures.

011.

Help me narrow a broad niche [BROAD NICHE] into five audience-specific sub-niches. Explain the audience need and content opportunity for each.

012.

Generate 15 strategic questions I should answer before launching a page about [TOPIC]. Group them into audience, credibility, differentiation, capacity, and goals.

013.

Create a SWOT analysis for my creator brand [BRAND] in [NICHE], using only the information I provide. Label assumptions and suggest practical next actions.

014.

Design a 90-day creator growth roadmap for [CURRENT STAGE] with [HOURS] hours per week. Focus on controllable actions and learning milestones, not guaranteed follower targets.

015.

Help me decide whether [TOPIC A] and [TOPIC B] belong on one creator account or separate accounts. Assess audience overlap, content promise, posting capacity, and brand clarity.

016.

Create a creator brand architecture for [BRAND] with a main identity, content series, products, and services. Keep the structure simple for a solo creator.

017.

Define three audience segments within [NICHE]. For each, describe their situation, urgent questions, barriers, desired outcomes, and content that would be useful.

018.

Turn my broad goal [GOAL] into three measurable creator objectives for the next 30 days. Separate output metrics from audience-response metrics.

019.

Create a decision framework for evaluating whether a trending topic fits my brand [BRAND]. Include relevance, audience value, accuracy, timing, and reputational risk.

020.

Review this draft strategy [PASTE STRATEGY]. Identify vague statements, unsupported assumptions, audience gaps, and contradictions. Rewrite it into a concise, actionable plan.

02 / AUDIENCE RESEARCH & INSIGHTS

20 prompts · Replace bracketed fields with your own details.

021.

Create an audience research plan for [NICHE] that I can complete in one week without paid tools. Include where to observe questions, what to record, and how to avoid treating anecdotes as universal facts.

022.

Generate 20 open-ended interview questions for people in [AUDIENCE] about their challenges with [TOPIC]. Avoid leading questions and sales pressure.

023.

Analyse these audience comments [PASTE COMMENTS]. Group them into recurring questions, frustrations, desired outcomes, objections, and phrases worth reflecting in content. Do not infer demographics not stated.

024.

Build an audience empathy map for [AUDIENCE] dealing with [PROBLEM]. Separate known evidence from hypotheses and list ways to validate each hypothesis.

025.

Create a voice-of-customer phrase bank from these reviews or comments [PASTE TEXT]. Preserve meaning, group by theme, and do not fabricate quotes.

026.

List 25 beginner questions about [NICHE] that a new creator could answer. Organise them from foundational to intermediate and flag questions requiring expert verification.

027.

Identify five hidden barriers that may stop [AUDIENCE] from achieving [GOAL]. For each, suggest a helpful content angle and a question to validate the barrier.

028.

Create a customer journey map for [AUDIENCE] moving from unaware to informed to taking action on [TOPIC]. Suggest content that helps at each stage without pressuring the audience.

029.

Turn these search phrases [KEYWORDS] into audience-intent clusters. Label informational, comparison, troubleshooting, and action intent.

030.

Develop a weekly audience listening routine for [CREATOR] that takes 20 minutes. Include a capture sheet and a method for choosing content ideas.

031.

Review this proposed audience profile [PROFILE]. Identify stereotypes, overly broad assumptions, missing context, and more precise alternatives.

032.

Generate 15 community poll questions for [NICHE] that reveal audience needs and preferences. Make every option neutral and easy to answer.

033.

Create a problem-priority matrix for these audience issues [ISSUES]. Score urgency, frequency, impact, and whether I can responsibly help.

034.

Summarise these audience questions [PASTE QUESTIONS] into a ranked FAQ list. Keep the original meaning and mark duplicates.

035.

Suggest ethical ways to research [AUDIENCE] online while respecting privacy, platform rules, and community norms.

036.

Create a list of 20 content opportunities from this audience feedback [FEEDBACK]. For each, state the problem, useful takeaway, and best format.

037.

Separate the stated problem from possible root causes in this audience scenario [SCENARIO]. Give alternative explanations and what evidence would distinguish them.

038.

Write a short survey for [AUDIENCE] about [TOPIC], with no more than eight questions. Use neutral wording and explain what each question helps me learn.

039.

Create a simple audience insight dashboard with fields for question, source, frequency, urgency, content idea, evidence strength, and status.

040.

Turn these five audience insights [INSIGHTS] into a practical editorial priority list for the next two weeks. Explain the ranking.

03 / CONTENT IDEATION & PILLARS

20 prompts · Replace bracketed fields with your own details.

041.

Generate 30 original content ideas for [NICHE] aimed at [AUDIENCE]. Organise them across [PILLARS], vary formats, and avoid repeating the same angle.

042.

Create five content pillars for [CREATOR] in [NICHE]. For each, define audience need, boundaries, 10 repeatable angles, and one recurring series.

043.

Turn this topic [TOPIC] into 15 distinct angles: beginner explanation, myth, mistake, checklist, case study, comparison, story, demonstration, FAQ, and advanced insight.

044.

Generate 20 content ideas from this product, skill, or process [SUBJECT]. Focus on useful audience questions rather than constant promotion.

045.

Create a 30-day idea bank for [NICHE] with one idea per day. Include topic, target viewer, key takeaway, format, and a suggested CTA.

046.

Give me 25 educational content ideas about [TOPIC] ordered from beginner to advanced. Include prerequisites where needed.

047.

Create 15 storytelling ideas based on my experience [EXPERIENCE] that teach a lesson without oversharing private or sensitive information.

048.

Generate 20 content ideas that demonstrate my process in [SKILL]. Include screen-recording, behind-the-scenes, before-and-after, and breakdown formats.

049.

Turn these frequently asked questions [FAQS] into a content series with episode titles, learning outcomes, and a logical viewing order.

050.

Create 12 myth-versus-fact content ideas about [NICHE]. Flag claims that require reliable sources before publication.

051.

Suggest 15 seasonal or timely content angles relevant to [AUDIENCE] during [PERIOD]. Distinguish evergreen ideas from time-sensitive ones.

052.

Generate 10 contrarian-but-responsible perspectives on [TOPIC]. Each must be defensible, fair to opposing views, and supported by reasoning.

053.

Create a content matrix combining these pillars [PILLARS] with these formats [FORMATS]. Fill it with 20 varied ideas.

054.

Repurpose this long-form topic [TOPIC] into 10 short posts without repeating the same message. Give each a distinct purpose.

055.

Generate 20 content ideas for a creator with limited equipment [EQUIPMENT] and [HOURS] hours per week. Prioritise low-production formats.

056.

Create 15 interactive content ideas that encourage useful audience participation about [NICHE], not empty engagement bait.

057.

Find gaps in this existing idea list [IDEAS]. Identify repeated angles and suggest fresh directions.

058.

Turn one broad topic [TOPIC] into a learning pathway of 10 posts, each building on the previous one.

059.

Generate 10 case-study content concepts using this project [PROJECT]. Include context, process, outcome, limitations, and lessons.

060.

Rank these content ideas [IDEAS] by audience relevance, usefulness, credibility, production effort, and fit with my strategy.

04 / HOOKS & OPENING LINES

20 prompts · Replace bracketed fields with your own details.

061.

Write 25 truthful short-form video hooks for [TOPIC] aimed at [AUDIENCE]. Use curiosity, problem recognition, contrast, and practical outcomes without clickbait.

062.

Create 20 hooks that begin with a common mistake in [NICHE]. Keep them specific and ensure the video can deliver on each promise.

063.

Write 15 question-based hooks for a tutorial about [TOPIC]. Avoid questions with obvious or yes/no answers.

064.

Generate 20 hooks using a before-and-after contrast for [PROCESS]. Do not imply results that have not been demonstrated.

065.

Create 15 hooks for a personal story about [EXPERIENCE], each opening a curiosity gap while remaining accurate.

066.

Write 20 myth-busting hooks about [SUBJECT]. Distinguish genuine myths from matters where experts reasonably disagree.

067.

Turn this plain opening [DRAFT] into 10 stronger versions. Preserve the meaning and avoid exaggerated claims.

068.

Generate 15 hooks for a product demonstration of [PRODUCT]. Focus on use cases, limitations, and audience fit rather than hype.

069.

Write 20 hooks for beginner creators learning [SKILL]. Use simple language and make the value obvious.

070.

Create 15 hooks that challenge a common assumption about [TOPIC] respectfully and with a clear explanation to follow.

071.

Generate 10 hooks under 8 words and 10 hooks under 14 words for [TOPIC]. Keep each natural when spoken aloud.

072.

Write 20 hooks for a carousel about [TOPIC]. Make the first slide clear, relevant, and strong enough to invite swiping.

073.

Create 15 hooks based on a surprising but verifiable fact about [TOPIC]. Mark facts that need sourcing.

074.

Write 15 hooks for a tutorial where the viewer will learn [OUTCOME] using [TOOL / METHOD].

075.

Generate 20 hooks that start with “Stop”, “Before you”, or “If you”, but make them helpful rather than aggressive.

076.

Create five hook options for each of these audience pain points [PAIN POINTS]. Keep each matched to its specific pain point.

077.

Score these hooks [HOOKS] for clarity, relevance, credibility, specificity, and spoken rhythm. Rewrite the weakest five.

078.

Write 15 hooks that use a short personal confession or lesson without manufacturing drama.

079.

Create 20 hooks for a comparison between [OPTION A] and [OPTION B]. Avoid declaring a winner without criteria.

080.

Build a reusable hook formula sheet for [NICHE] with 12 fill-in-the-blank structures and one realistic example per structure.

05 / SHORT-FORM VIDEO SCRIPTS

20 prompts · Replace bracketed fields with your own details.

081.

Write a 30-second vertical video script about [TOPIC] for [AUDIENCE]. Include hook, context, three concise value beats, payoff, and one CTA.

082.

Create a 45-second tutorial script teaching [TASK] with simple spoken language, on-screen text, and visual directions.

083.

Write a 60-second myth-busting script about [MYTH]. Explain what is inaccurate, what is true, and where nuance matters.

084.

Turn this rough idea [IDEA] into a natural conversational script. Keep my voice [VOICE] and remove robotic phrasing.

085.

Create a story-led video script about [EXPERIENCE] using setup, tension, turning point, lesson, and audience takeaway.

086.

Write a screen-recording tutorial script for [SOFTWARE / APP] showing [TASK]. Include cursor actions, narration, and checkpoints.

087.

Create a product review script for [PRODUCT] covering who it suits, key features, drawbacks, alternatives, and a fair conclusion.

088.

Write a comparison video script for [A] versus [B] using criteria [CRITERIA]. Keep the verdict conditional on user needs.

089.

Create a 3-part video series explaining [COMPLEX TOPIC] to beginners. Give each episode a hook and a satisfying standalone takeaway.

090.

Write a 20-second announcement script for [NEWS / UPDATE]. Include only verified facts and a clear source-check reminder.

091.

Create a faceless video script about [TOPIC] using voiceover, B-roll, screen captures, and text overlays. Provide a shot list.

092.

Write a talking-head script for [TOPIC] with natural pauses, gestures, emphasis, and conversational transitions.

093.

Turn this article or notes [PASTE MATERIAL] into an original script. Preserve factual meaning, do not copy distinctive phrasing, and flag missing context.

094.

Write a 90-second case-study script about [PROJECT]. Include starting challenge, decisions, process, outcome, and limitations.

095.

Create a beginner-friendly explainer script for [TERM]. Use an analogy, a real-world example, and one common misconception.

096.

Write a script that responds to this audience comment [COMMENT] respectfully and adds value beyond simply repeating the comment.

097.

Create a video script that demonstrates three ways to use [TOOL] for [TASK]. Include a practical example for each.

098.

Write a strong ending for this script [SCRIPT] that pays off the hook and leads naturally to [CTA].

099.

Edit this script [SCRIPT] for retention. Remove filler, improve transitions, vary pacing, and explain every major edit.

100.

Create a production-ready script pack for [TOPIC]: 15-second, 30-second, and 60-second versions with distinct pacing.

06 / CAPTIONS, DESCRIPTIONS & CTAS

20 prompts · Replace bracketed fields with your own details.

101.

Write five caption options for this post [POST]. Provide educational, conversational, concise, storytelling, and question-led versions.

102.

Create a caption that summarises the practical takeaway of [VIDEO] without simply transcribing the video.

103.

Write a caption for [NICHE] that opens with a clear benefit, gives useful context, and ends with one relevant CTA.

104.

Turn these notes [NOTES] into a polished social caption in my voice [VOICE]. Keep facts unchanged and avoid generic motivational filler.

105.

Create 10 CTA options for a post whose goal is [GOAL]. Make each action specific, low-friction, and relevant.

106.

Write a pinned comment for [POST] that adds a useful resource or clarifies the next step without repeating the caption.

107.

Create a concise video description for [TOPIC] with natural keywords, a clear summary, and relevant links placeholders.

108.

Rewrite this caption [CAPTION] to be clearer and more readable on mobile. Preserve the original meaning.

109.

Generate 15 audience questions that can close a post about [TOPIC] and invite thoughtful responses.

110.

Write a launch caption for [PRODUCT] aimed at [AUDIENCE]. State exactly what is included, who it is for, price [PRICE], and how to access it.

111.

Create a transparent affiliate disclosure sentence for a post recommending [PRODUCT] where I may earn a commission.

112.

Write a caption explaining the limitations of [TOOL / METHOD] while still showing where it is useful.

113.

Create three caption lengths—short, medium, long—for this content [CONTENT]. Keep the same factual message.

114.

Turn this technical explanation [TEXT] into a caption that a beginner can understand, while retaining necessary technical accuracy.

115.

Write a carousel caption that adds context to the slides and invites readers to save or share only if genuinely useful.

116.

Create a respectful response to this negative comment [COMMENT]. Acknowledge valid concerns and correct inaccuracies without escalating.

117.

Write five captions for a behind-the-scenes post showing [PROCESS]. Make the work and lesson visible.

118.

Generate a set of 12 CTA phrases for educational content, community building, newsletter signups, and product discovery.

119.

Review this caption [CAPTION] for unsupported claims, confusing wording, excessive hashtags, and unclear CTA. Provide a corrected version.

120.

Create a reusable caption template for [NICHE] with fill-in fields and a worked example.

07 / CAROUSELS & EDUCATIONAL POSTS

20 prompts · Replace bracketed fields with your own details.

121.

Create a 7-slide educational carousel about [TOPIC]. Give each slide one clear job: hook, context, steps, example, mistake, summary, CTA.

122.

Turn this complex subject [SUBJECT] into a beginner-friendly 10-slide carousel with accurate explanations and one example per key concept.

123.

Create a myth-versus-fact carousel about [TOPIC]. Include nuance and source-check notes for factual claims.

124.

Design a checklist carousel for [TASK]. Make each step actionable and keep text short enough for mobile reading.

125.

Create a comparison carousel for [A] and [B] using [CRITERIA]. Include who each option suits and avoid an unsupported universal winner.

126.

Turn these notes [NOTES] into a 6-slide carousel with a strong narrative flow and concise slide copy.

127.

Create a mistake-to-solution carousel for beginners in [NICHE]. Give each mistake a practical correction.

128.

Write a case-study carousel about [PROJECT] with context, process, result, evidence, and lessons learned.

129.

Create a glossary carousel explaining 10 essential terms in [FIELD] using plain definitions and examples.

130.

Generate 12 carousel cover headlines for [TOPIC]. Prioritise clarity, specificity, and honest curiosity.

131.

Create a step-by-step carousel teaching [PROCESS]. Include prerequisites, steps, checks, and common failure points.

132.

Create a decision-tree carousel helping [AUDIENCE] choose between [OPTIONS]. State when more information is needed.

133.

Turn this FAQ list [FAQS] into a carousel series with one question per post and a consistent visual structure.

134.

Write a carousel explaining the pros, cons, and limitations of [TOOL / METHOD]. Keep recommendations conditional on use case.

135.

Create a 5-slide quick lesson about [TOPIC] with one central takeaway and a small practice task.

136.

Review this carousel copy [COPY] for text density, logic, accuracy, accessibility, and slide-to-slide flow.

137.

Create a content repurposing plan from this carousel [CAROUSEL] into a short video, text post, story sequence, and email.

138.

Write alt-text descriptions for these carousel slides [SLIDE DESCRIPTIONS] so the information is accessible to screen-reader users.

139.

Create a carousel that teaches [SKILL] through a worked example, showing each decision and why it matters.

140.

Build a reusable carousel brief template for [BRAND] including audience, objective, hook, slide sequence, visual notes, CTA, and source list.

08 / CONTENT CALENDARS & PLANNING

20 prompts · Replace bracketed fields with your own details.

141.

Build a 30-day content calendar for [NICHE] targeting [AUDIENCE] with [POSTS PER WEEK] posts weekly. Include topic, format, hook, takeaway, CTA, and production effort.

142.

Create a two-week calendar using these pillars [PILLARS] and available formats [FORMATS]. Balance education, demonstration, connection, and promotion.

143.

Plan a weekly content workflow for a solo creator with [HOURS] hours available. Include research, scripting, production, editing, publishing, and review.

144.

Turn this list of ideas [IDEAS] into a realistic publishing calendar. Group related topics and avoid scheduling similar posts back-to-back.

145.

Create a launch calendar for [PRODUCT / PROJECT] covering teaser, education, demonstration, launch, FAQ, and post-launch feedback.

146.

Build a calendar for a creator who can only record on [DAY] and edit on [DAY]. Include batching and repurposing.

147.

Create an evergreen content calendar for [NICHE] that does not depend on trends or current events.

148.

Generate a seasonal calendar for [AUDIENCE] during [MONTH / SEASON]. Flag dates or claims that need current verification.

149.

Create a weekly recurring series plan for [BRAND] with episode themes for eight weeks.

150.

Prioritise these content ideas [IDEAS] using audience relevance, timeliness, effort, credibility, and strategic fit.

151.

Build a content backlog template with fields for idea, pillar, audience problem, status, deadline, asset needs, and performance notes.

152.

Create a content calendar for a beginner with no existing audience. Focus on foundational education and learning from responses.

153.

Plan a 10-post campaign explaining [TOPIC] from first principles to practical application.

154.

Create a calendar that repurposes one long-form video into multiple short posts without making the feed repetitive.

155.

Schedule content around this event [EVENT]. Separate pre-event preparation, live coverage, and post-event lessons; verify event details.

156.

Create a realistic posting plan for [PLATFORMS] that adapts content to each platform instead of copying identical posts everywhere.

157.

Build a monthly editorial meeting agenda for a one-person creator brand. Keep it under 45 minutes.

158.

Create a fallback content plan for weeks when I have limited time or cannot film. Use low-production formats.

159.

Review my draft calendar [CALENDAR]. Identify workload risks, topic repetition, weak audience fit, and missing content objectives.

160.

Create a reusable content planning spreadsheet specification with columns, dropdowns, status labels, and simple formulas.

09 / STORYTELLING & PERSONAL BRAND

20 prompts · Replace bracketed fields with your own details.

161.

Help me find five useful stories from this experience [EXPERIENCE]. For each, identify the audience lesson, privacy risks, and a respectful way to tell it.

162.

Turn this personal lesson [LESSON] into a short story with context, challenge, choice, outcome, and takeaway. Do not invent events.

163.

Create a personal brand narrative for [CREATOR] using only these facts [FACTS]. Avoid exaggerated origin stories and unsupported claims.

164.

Write a creator introduction that explains who I am, what I explore, and who may benefit from following me. Keep it natural and concise.

165.

Create a behind-the-scenes story sequence showing [PROCESS] with a beginning, decision point, progress, and lesson.

166.

Help me communicate a failure [FAILURE] constructively. Focus on accountability, learning, and what I would do differently.

167.

Turn my learning journey in [SKILL] into a six-episode series. Make the progress honest and include what I still do not know.

168.

Write a values statement for [BRAND] with five operating principles and examples of how each appears in content.

169.

Create a brand voice guide for [CREATOR] including tone, vocabulary, sentence rhythm, humour boundaries, and examples.

170.

Suggest 10 recurring personal-brand content formats that do not rely on oversharing private life.

171.

Write a short creator bio for [PLATFORM] within [CHARACTER LIMIT]. Include audience, value and CTA.

172.

Create three versions of my creator introduction: professional, warm conversational, and energetic educational.

173.

Turn this project timeline [TIMELINE] into a story-led case study with honest milestones and constraints.

174.

Help me explain why I care about [TOPIC] without sounding self-important. Use concrete examples and audience relevance.

175.

Create a narrative arc for a series documenting [PROJECT] over 30 days. Include checkpoints and transparent reporting.

176.

Write a thoughtful response to criticism of my work [CRITICISM]. Separate useful feedback from misunderstanding and defensiveness.

177.

Develop a set of brand principles for handling mistakes, sponsorships, corrections, and audience trust.

178.

Create a portfolio story for this work [PROJECT] that explains the brief, my role, process, decisions, and deliverables.

179.

Help me define what I will and will not share publicly as a creator. Create a privacy boundary checklist.

180.

Review this personal brand story [DRAFT] for clarity, authenticity, relevance, and unnecessary personal disclosure.

10 / VIDEO PRODUCTION & SHOT LISTS

20 prompts · Replace bracketed fields with your own details.

181.

Create a shot list for a 30-second video about [TOPIC]. Include framing, action, B-roll, on-screen text, and estimated duration.

182.

Plan a talking-head setup for [VIDEO] using [AVAILABLE LIGHTS], [CAMERA], and [ROOM]. Prioritise clear face exposure and clean audio.

183.

Create a B-roll checklist for a tutorial about [TASK], including close-ups, screen captures, environment shots, and transitions.

184.

Turn this script [SCRIPT] into a scene-by-scene storyboard for vertical 9:16 video.

185.

Suggest practical camera movements for a product demonstration of [PRODUCT]. Keep movements achievable with basic equipment.

186.

Create a low-budget lighting plan for [ROOM SIZE] using [LIGHTS]. Explain placement, distance, colour temperature, and safety.

187.

Write a recording checklist for a solo creator using [PHONE / CAMERA] and [MIC]. Include storage, battery, framing and audio checks.

188.

Create a voiceover direction sheet for [SCRIPT] with pace, pauses, emphasis, emotional tone and pronunciation notes.

189.

Plan a faceless video about [TOPIC] using legal, original or properly licensed visuals. Include source tracking.

190.

Create a visual metaphor list for explaining [ABSTRACT CONCEPT] to beginners.

191.

Build a 5-scene product video for [PRODUCT] showing problem, demonstration, detail, limitation, and CTA.

192.

Create an editing plan for [FOOTAGE] with pacing, cuts, captions, sound design and visual continuity.

193.

Suggest three achievable opening shots for a video about [TOPIC] that communicate the subject immediately.

194.

Turn this tutorial into a screen-recording plan with zoom points, cursor highlights, narration and viewer checkpoints.

195.

Create a shot list for a creator introduction filmed in [LOCATION] with a natural, professional look.

196.

Write a continuity checklist for filming multiple clips in one session, including wardrobe, lighting, framing and audio.

197.

Create a safe and accessible filming plan for [ACTIVITY]. Identify hazards, permissions and any specialist guidance needed.

198.

Plan a before-and-after video for [PROJECT] that shows the process honestly and does not misrepresent the result.

199.

Create a production schedule for recording [NUMBER] short videos in [TIME AVAILABLE]. Include breaks and setup time.

200.

Review this storyboard [STORYBOARD] for visual clarity, pacing, feasibility, and whether each shot supports the message.

11 / EDITING, RETENTION & PACING

20 prompts · Replace bracketed fields with your own details.

201.

Review this script or transcript [TEXT] and identify likely attention drop-offs. Suggest cuts, clarifications and stronger payoffs without changing facts.

202.

Create an editing blueprint for a 45-second explainer about [TOPIC], with approximate timestamps, visual changes and caption emphasis.

203.

Suggest ways to improve the first three seconds of this video [DESCRIPTION] while keeping the opening honest.

204.

Create a pacing map for [SCRIPT] that alternates explanation, demonstration, example and visual reset.

205.

Identify filler words and repeated ideas in this transcript [TRANSCRIPT]. Produce a tighter version and list what was removed.

206.

Create an on-screen caption plan for [VIDEO]. Highlight only key phrases and ensure captions remain readable on mobile.

207.

Suggest sound design for [VIDEO TYPE] using licensed or platform-provided audio. Explain where silence may be more effective.

208.

Create a clean transition plan for [SCENES]. Avoid transitions that distract from the information.

209.

Review this edit description [EDIT] for continuity errors, inconsistent audio, abrupt cuts and visual clutter.

210.

Suggest three ways to show [CONCEPT] visually instead of explaining it only through narration.

211.

Create a retention-focused rewrite of this opening [OPENING]. Preserve the actual promise and remove misleading curiosity gaps.

212.

Build a checklist for reviewing average watch time and retention graphs. Explain what each pattern might indicate without overclaiming causation.

213.

Suggest a natural pattern interrupt for each section of this script [SCRIPT], such as a demonstration, question, angle change or example.

214.

Create a 15-second cutdown from this longer script [SCRIPT] that preserves the core takeaway.

215.

Create three alternate edits of [FOOTAGE]: fast educational, calm premium, and story-led. Specify pacing and visual choices.

216.

Review these viewer comments and retention notes [DATA]. Suggest testable improvements and separate correlation from cause.

217.

Create a quality-control checklist for vertical video export, including aspect ratio, resolution, audio levels, captions and safe zones.

218.

Suggest how to improve clarity in this video [DESCRIPTION] for viewers watching without sound.

219.

Create a post-production workflow for a solo creator using [EDITOR]. Include file naming, backups, revisions and export presets.

220.

Turn this weak ending [ENDING] into a satisfying payoff that resolves the opening and uses one relevant CTA.

12 / AI IMAGE & DESIGN PROMPTS

20 prompts · Replace bracketed fields with your own details.

221.

Create a detailed image-generation prompt for a clean editorial cover about [TOPIC], using [BRAND COLOURS], clear visual hierarchy and no embedded text.

222.

Write a prompt for a photorealistic product scene featuring [PRODUCT], preserving its actual shape, labels and proportions from the reference image.

223.

Create a prompt for a professional creator workspace visual with [ROOM DETAILS], realistic lighting, natural materials and no artificial-looking effects.

224.

Write a prompt for a minimal educational infographic about [CONCEPT]. Specify hierarchy, icon style, spacing and exact labels separately.

225.

Create three visual directions for a carousel cover about [TOPIC]: editorial, bold modern, and minimal premium.

226.

Write an image prompt for a cinematic portrait of [SUBJECT] while preserving identity and natural facial features from the supplied reference.

227.

Create a prompt for a clean mockup scene displaying [DIGITAL PRODUCT] on a laptop, tablet and phone. Keep screen content legible and product branding consistent.

228.

Write a prompt for a realistic before-and-after design presentation of [PROJECT] without altering the underlying factual result.

229.

Create a prompt for a set of five matching visual assets for a content series about [TOPIC]. Maintain consistent palette, lighting and composition.

230.

Design a prompt for a thumbnail about [VIDEO TOPIC] with one focal subject, clear emotion, strong contrast and minimal text space.

231.

Write a prompt for a flat vector illustration explaining [PROCESS], using consistent line weight and a restrained palette.

232.

Create a prompt for a premium social media background texture for [BRAND], subtle enough to keep text readable.

233.

Write a prompt for a product lifestyle image showing [PRODUCT] in a believable real-world use context. Avoid unsupported feature claims.

234.

Create a prompt for a 9:16 vertical story graphic announcing [ANNOUNCEMENT], with clear hierarchy and a strong CTA area.

235.

Generate a design brief for a 10-slide educational carousel about [TOPIC], including a consistent layout system and slide-by-slide visual direction.

236.

Write a prompt for a realistic technology desk scene featuring [DEVICES], with correct proportions and no invented logos or text.

237.

Create an image prompt for a conceptual visual metaphor for [ABSTRACT IDEA]. Explain the metaphor and keep the image uncluttered.

238.

Write a prompt to transform a supplied sketch into a polished design while preserving the original layout, proportions and key elements.

239.

Create an accessible colour and typography direction for [BRAND] that meets strong contrast and readability needs.

240.

Review this visual brief [BRIEF] and improve it for image-generation clarity, specifying subject, composition, lighting, materials, palette and exclusions.

13 / BRANDING & PROFILE OPTIMISATION

20 prompts · Replace bracketed fields with your own details.

241.

Audit my social profile [BIO / SCREENSHOT DESCRIPTION] for clarity, audience fit, value proposition, credibility and CTA. Suggest changes without inventing credentials.

242.

Write 10 bio options for a [NICHE] creator helping [AUDIENCE] with [OUTCOME], each within [CHARACTER LIMIT].

243.

Create a profile optimisation checklist for [PLATFORM] covering username, name field, profile image, bio, links, pinned content and highlights.

244.

Develop a simple visual identity brief for [BRAND] with palette, typography, layout principles, imagery style and accessibility notes.

245.

Suggest 10 memorable but clear content-series names for [NICHE]. Avoid confusing spelling and names already known to be trademarks.

246.

Write a brand voice guide using these examples of my writing [SAMPLES]. Identify recurring traits and practical rules.

247.

Create a pinned-post strategy for a new creator account. Define the purpose and content of three pinned posts.

248.

Write a profile introduction post that explains what followers can expect and who the page is designed to help.

249.

Create a consistent cover system for [SERIES] with title hierarchy, episode number, image placement and colour rules.

250.

Review these brand names [NAMES] for clarity, memorability, pronunciation and audience fit. Remind me to check domain and trademark availability.

251.

Create a one-page brand brief for a freelance designer based on [BRAND DETAILS].

252.

Suggest visual ways to show credibility for a beginner creator without pretending to have experience they do not have.

253.

Create a content highlight structure for [NICHE] with names, purpose and what belongs in each highlight.

254.

Write a short brand story for [BRAND] from these verified facts [FACTS].

255.

Develop a simple style guide for consistent thumbnails across [PLATFORMS].

256.

Create a profile link-page structure for [CREATOR] with clear priorities and minimal choices.

257.

Write an about section for [CREATOR] that is audience-focused, specific and honest.

258.

Create a brand consistency audit checklist for posts, captions, thumbnails, stories and landing pages.

259.

Suggest how to adapt my brand visuals for dark and light backgrounds while maintaining contrast.

260.

Review my brand direction [DIRECTION] and identify what feels generic, inconsistent or difficult to maintain.

14 / COMMUNITY & ENGAGEMENT

20 prompts · Replace bracketed fields with your own details.

261.

Create 20 thoughtful questions for my audience about [TOPIC], designed to reveal needs rather than farm comments.

262.

Write five friendly replies to this audience question [QUESTION], each adding a useful detail and inviting clarification where needed.

263.

Design a weekly community routine for [CREATOR] that takes 15 minutes per day and prioritises meaningful interaction.

264.

Create a Q&A content plan from these audience questions [QUESTIONS], grouping related themes and prioritising urgent ones.

265.

Write a community welcome message for [GROUP / PAGE] that explains purpose, expectations and respectful participation.

266.

Create a moderation guideline for a creator community about [TOPIC], including spam, harassment, misinformation and privacy.

267.

Suggest 15 audience participation formats that create shared learning, such as challenges, critiques, polls and progress threads.

268.

Write a response to a critical comment [COMMENT] that is calm, factual and non-defensive.

269.

Create a process for turning repeated DMs into public FAQ content while protecting sender privacy.

270.

Develop a simple community feedback survey with six neutral questions about content usefulness and preferred formats.

271.

Write a thank-you message for people who supported [PROJECT] without exaggerating the scale of support.

272.

Create a comment moderation decision tree for [COMMUNITY]. Distinguish disagreement from abuse or spam.

273.

Suggest ways to encourage audience members to share their own work safely and constructively.

274.

Create a 7-day community challenge about [SKILL] with a small daily task and clear participation rules.

275.

Write a respectful reminder about community rules for [GROUP], in a warm but firm tone.

276.

Turn this discussion [DISCUSSION NOTES] into a community recap with key insights and next steps.

277.

Create five poll formats to learn what my audience wants to learn next about [NICHE].

278.

Suggest ways to recognise community contributions without creating unhealthy competition.

279.

Write an apology and correction post for this confirmed mistake [MISTAKE]. Be transparent and specific about the correction.

280.

Build a monthly community health review covering helpfulness, safety, participation quality and unanswered questions.

15 / GROWTH EXPERIMENTS & ANALYTICS

20 prompts · Replace bracketed fields with your own details.

281.

Design a 30-day growth experiment for [ACCOUNT] with one hypothesis, one primary variable, a posting plan and success indicators. Avoid guaranteed outcomes.

282.

Analyse these post metrics [DATA]. Compare like with like, identify patterns, note sample-size limits and suggest three tests.

283.

Create a weekly analytics dashboard for [PLATFORM] with reach, views, retention, engagement, profile actions and notes.

284.

Help me interpret a drop in views using these details [DETAILS]. List possible causes and what evidence would help distinguish them.

285.

Create an A/B testing plan for two hooks [HOOK A] and [HOOK B]. Keep the content otherwise as comparable as practical.

286.

Suggest five ways to improve saves and shares for educational content about [TOPIC] by increasing usefulness rather than asking for engagement.

287.

Create a content performance review template that records objective, audience, format, result, lesson and next experiment.

288.

Identify outlier posts in this dataset [DATA] and explain why one viral post should not define the entire strategy.

289.

Create a plan to test posting frequency for [ACCOUNT] without sacrificing content quality or creator wellbeing.

290.

Review these retention observations [OBSERVATIONS]. Suggest edits to test in future videos and avoid causal certainty.

291.

Create a measurement plan for a campaign whose goal is [GOAL]. Choose leading and lagging indicators.

292.

Calculate engagement rates using the supplied definitions and data [DATA]. State the formula and missing fields.

293.

Compare performance across these formats [DATA]. Account for differences in reach, topic, length and audience before drawing conclusions.

294.

Create a 4-week experiment backlog for [ACCOUNT], prioritised by potential learning and ease of execution.

295.

Help me decide whether to repeat, refine or stop this content series using [RESULTS] and [STRATEGY].

296.

Build a simple UTM naming convention for tracking links from [PLATFORMS] to [DESTINATION].

297.

Create a monthly report for a creator brand using [METRICS]. Include executive summary, wins, risks and next actions.

298.

Explain what these platform analytics terms mean [TERMS] in plain language and how a creator might use them.

299.

Design a content audit for my last 30 posts. Categorise topic, pillar, format, hook, CTA and observed response.

300.

Create a decision checklist for when to change niche, adjust positioning or simply improve content execution.

16 / AI WORKFLOWS & PRODUCTIVITY

20 prompts · Replace bracketed fields with your own details.

301.

Design an AI-assisted weekly content workflow for [CREATOR] using [TOOLS] and [HOURS]. Include human review at every important stage.

302.

Create a reusable prompt chain that moves from audience question to researched outline, script, caption and quality check for [TOPIC].

303.

Build a content brief template I can fill in before asking AI to write anything. Include audience, objective, evidence, voice and CTA.

304.

Create a fact-checking workflow for AI-generated content about [FIELD]. Include primary sources, date checks and uncertainty labels.

305.

Turn this messy note [NOTE] into an organised content brief without adding facts that are not present.

306.

Create a prompt that critiques AI-generated scripts for generic phrasing, unsupported claims, repetition and mismatch with my voice.

307.

Design a batch-generation workflow for 10 content ideas while ensuring each idea has a distinct audience need and angle.

308.

Create a file-naming and folder system for AI drafts, approved scripts, footage, exports and source references.

309.

Build a reusable AI prompt template with placeholders for niche, audience, goal, format, voice, evidence and constraints.

310.

Suggest which parts of my workflow [WORKFLOW] should use AI and which should remain human-led. Consider quality, privacy and risk.

311.

Create a time-blocked weekly schedule for content creation, client work, learning and rest based on [AVAILABILITY].

312.

Turn this transcript [TRANSCRIPT] into a searchable knowledge base outline with topics, definitions and source notes.

313.

Create a content repurposing workflow that adapts one long-form asset into platform-native pieces without duplicate-feeling posts.

314.

Build a quality assurance checklist for AI-assisted captions, scripts, images and research summaries.

315.

Write instructions for an AI assistant that must ask clarifying questions when the brief lacks audience, goal or evidence.

316.

Create a workflow to maintain a consistent tone across multiple content formats using my approved writing samples [SAMPLES].

317.

Suggest low-cost automation opportunities for [CREATOR WORKFLOW]. Identify risks and tasks that require manual approval.

318.

Create a prompt to convert a lesson [LESSON] into an exercise, example, recap and knowledge check.

319.

Design a personal prompt library taxonomy for [NICHE] with categories, tags, versioning and test notes.

320.

Audit this AI workflow [WORKFLOW] for privacy risks, hallucination risks, copyright concerns and unnecessary complexity.

17 / CREATOR BUSINESS & MONETISATION

20 prompts · Replace bracketed fields with your own details.

321.

List ethical monetisation paths for a creator in [NICHE] with audience [AUDIENCE]. Compare services, digital products, sponsorships, memberships and education by effort and trust requirements.

322.

Help me package my skill [SKILL] into three service offers for [CUSTOMER TYPE]. Define deliverables, boundaries, timeline and value without promising business results.

323.

Create a customer discovery plan to validate demand for a digital product about [TOPIC] before I build it.

324.

Design a simple digital product outline solving [PROBLEM] for [AUDIENCE]. Include modules, worksheets, examples and a clear scope.

325.

Write a transparent product description for [PRODUCT] including exact deliverables, intended buyer, limitations, access method and support terms.

326.

Create a pricing research framework for [SERVICE / PRODUCT] using customer value, effort, alternatives, costs and market evidence.

327.

Draft a client discovery questionnaire for [SERVICE] that identifies goals, constraints, audience, deliverables and approval process.

328.

Write a professional outreach message offering [SERVICE] to [BUSINESS TYPE]. Keep it personalised, concise and non-spammy.

329.

Create a simple proposal structure for [PROJECT] with scope, deliverables, timeline, revisions, price and exclusions.

330.

Design a basic sales funnel for [FREE RESOURCE] leading to [PAID OFFER]. Include consent-based follow-up and useful emails.

331.

Create a 5-email welcome sequence for subscribers who download [FREE RESOURCE]. Provide value before introducing [OFFER].

332.

Develop a launch plan for [DIGITAL PRODUCT] with validation, production, checkout testing, promotion and feedback collection.

333.

Create a product comparison table for [OFFER A] and [OFFER B] based on features, use cases, limitations and price.

334.

Write a refund and support policy draft for a digital product business in [JURISDICTION]. Flag legal points that require local professional review.

335.

Create a customer feedback form for buyers of [PRODUCT]. Ask about usability, clarity, missing content and outcomes without leading them.

336.

Build a simple revenue model for [PRODUCT] using price, units sold, fees, refunds and costs. Distinguish gross revenue from net profit.

337.

Suggest five lead magnet ideas for [AUDIENCE] that naturally connect to my paid offer [OFFER].

338.

Create an affiliate partnership evaluation checklist covering audience fit, disclosure, product quality, claims and reputation risk.

339.

Write a sales page outline for [PRODUCT] using problem, audience, solution, contents, proof, objections, price and CTA.

340.

Create a 30-day post-launch improvement plan using customer questions, conversion data, refund reasons and product feedback.

18 / CLIENT SERVICES & FREELANCING

20 prompts · Replace bracketed fields with your own details.

341.

Turn my skill [SKILL] into a clear freelance service offer for [CLIENT TYPE]. Include scope, deliverables, process and exclusions.

342.

Create a client onboarding checklist for a [SERVICE] project, from enquiry through brief, deposit, access, approvals and delivery.

343.

Write a professional reply to this client enquiry [ENQUIRY]. Ask only the essential questions needed to scope the work.

344.

Create a creative brief for [PROJECT] covering objectives, audience, message, deliverables, references, constraints and approval criteria.

345.

Draft a project timeline for [DELIVERABLES] with milestones, dependencies, client review windows and contingency.

346.

Create a revision policy for [SERVICE] that defines included revisions, what counts as a new scope and how changes are approved.

347.

Write a polite deposit request and explain that work begins after the agreed payment and project details are confirmed.

348.

Create a project handover checklist for [DELIVERABLE TYPE], including final files, formats, licences and usage instructions.

349.

Help me estimate a fair quote for [PROJECT] using hours, complexity, revisions, overhead and value. Show assumptions, not a single invented market rate.

350.

Write a follow-up message for a prospect who has not replied to my proposal. Keep it respectful and give them an easy out.

351.

Create a client feedback form for [SERVICE] that gathers satisfaction, clarity, communication and permission for a testimonial separately.

352.

Write a case study for this completed project [FACTS]. Do not fabricate client outcomes or imply endorsement without permission.

353.

Create a portfolio project description for [WORK] with challenge, role, process, deliverables and verified result.

354.

Build a weekly freelance pipeline tracker with lead source, contact date, stage, next action, estimated value and notes.

355.

Create a scope-change message for a client requesting [EXTRA WORK]. Explain the impact on cost and timeline professionally.

356.

Draft a professional project delay update for [REASON], including revised date, mitigation and what is needed from the client.

357.

Create a simple service menu for [SKILL] with three tiers that differ meaningfully in scope, not just vague labels.

358.

Write a testimonial request for a satisfied client, making clear that honest feedback is welcome and optional.

359.

Create a client communication plan for a [DURATION] project with update frequency, channels, response expectations and escalation.

360.

Review this freelance proposal [PROPOSAL] for clarity, scope gaps, risky promises and unclear payment terms.

19 / EDUCATION, TUTORIALS & EXPLAINERS

20 prompts · Replace bracketed fields with your own details.

361.

Explain [CONCEPT] to a complete beginner using a simple definition, analogy, real-world example, common misconception and recap.

362.

Create a lesson plan teaching [SKILL] in [DURATION]. Include learning objectives, demonstration, guided practice and assessment.

363.

Turn this technical topic [TOPIC] into a three-level explanation: beginner, intermediate and advanced.

364.

Create five practical exercises that help a learner practise [SKILL]. Include expected output and common mistakes.

365.

Write a tutorial outline for [TASK] with prerequisites, step-by-step instructions, checkpoints and troubleshooting.

366.

Create a glossary of 20 essential terms in [FIELD] with accurate beginner-friendly definitions.

367.

Generate 10 quiz questions about [TOPIC] with answers and explanations. Avoid ambiguous wording.

368.

Create a lesson recap that summarises [LESSON] into key concepts, practical steps and a short knowledge check.

369.

Explain the difference between [TERM A] and [TERM B] using a comparison table and examples.

370.

Create a safe beginner guide to [TECHNICAL TASK]. Identify risks, permissions and actions that should not be attempted without supervision.

371.

Turn this documentation [SOURCE TEXT] into an original beginner tutorial. Preserve technical accuracy and cite the supplied source where appropriate.

372.

Create a troubleshooting flow for [PROBLEM] with symptoms, likely causes, safe checks and escalation points.

373.

Write a practical demonstration script showing [CONCEPT] in action using [TOOLS].

374.

Create a mini-course outline for [AUDIENCE] learning [SKILL], with modules, exercises and completion criteria.

375.

Generate 15 common beginner mistakes in [FIELD] and explain how to avoid each.

376.

Create a concept map for [TOPIC] showing prerequisite knowledge and relationships between ideas.

377.

Write a fact-check checklist for educational posts about [FIELD], including source quality and update dates.

378.

Create a comparison of three approaches to [TASK], with strengths, limitations and appropriate use cases.

379.

Turn a long explanation [TEXT] into a concise lesson with headings, examples and a recap while preserving important nuance.

380.

Create an accessible explanation of [TOPIC] for someone unfamiliar with the jargon. Define every necessary technical term.

20 / NICHE ADAPTATION: TECH, AI & CYBERSECURITY

20 prompts · Replace bracketed fields with your own details.

381.

Create 15 beginner-friendly content ideas about [TECH TOPIC] for non-technical viewers. Flag topics that may become outdated.

382.

Write a safe educational explainer about [CYBERSECURITY CONCEPT]. Focus on defensive understanding and authorised environments only.

383.

Create a script explaining [AI TOOL] with what it does, practical use cases, limitations, privacy considerations and pricing details to verify.

384.

Compare [TECH PRODUCTS] using official specifications and clearly separate verified facts from personal opinion.

385.

Create a smartphone tutorial about [TASK] for [PHONE MODEL]. Ask for OS version if steps may differ.

386.

Explain [NETWORKING TERM] with a simple analogy, accurate definition, diagram description and real-world use.

387.

Create a defensive cybersecurity awareness carousel about [THREAT], covering warning signs, prevention and reporting.

388.

Write a responsible AI content guide explaining how to disclose synthetic media and avoid misleading viewers.

389.

Create a video about [SOFTWARE FEATURE] with steps that should be checked against the current official documentation before publishing.

390.

Generate 20 phone productivity tips for [AUDIENCE], prioritising built-in settings and safe, reversible changes.

391.

Create a comparison between [AI TOOL A] and [AI TOOL B] based on workflow, quality, privacy, limitations and current verified pricing.

392.

Write a beginner script explaining how to recognise phishing messages without reproducing a live malicious link.

393.

Create a safe lab-based learning plan for [CYBERSECURITY TOPIC] using intentionally vulnerable practice environments and clear authorisation boundaries.

394.

Explain the difference between ethical security testing and unauthorised access for a beginner audience.

395.

Create a tech myth-busting post about [CLAIM]. Identify what official documentation or reputable sources are needed to verify it.

396.

Write a tutorial outline for backing up [DEVICE / DATA] with steps, verification and recovery considerations.

397.

Create a responsible review checklist for AI-generated images or videos, including identity preservation, consent and disclosure.

398.

Develop a content series teaching [CODING CONCEPT] through small projects with progressively harder exercises.

399.

Create a beginner-friendly explanation of data privacy risks when using [APP / AI SERVICE]. Avoid claiming policies without checking current terms.

400.

Turn this cybersecurity news item [SOURCE / FACTS] into an educational summary that distinguishes confirmed facts, allegations and unknowns.

21 / NICHE ADAPTATION: FASHION, BEAUTY & LIFESTYLE

20 prompts · Replace bracketed fields with your own details.

401.

Create 20 content ideas for a fashion creator serving [AUDIENCE] with [STYLE / BUDGET]. Include styling education, fit guidance and care tips.

402.

Write a product demonstration script for [FASHION ITEM] showing fabric, fit, details, care and realistic use cases.

403.

Create a styling carousel showing three ways to wear [ITEM] for [OCCASION]. Avoid body-shaming language.

404.

Generate a month of content ideas for a clothing brand [BRAND] that balances product education, styling, process and customer questions.

405.

Write a transparent product description for [GARMENT] using verified fabric, size, colour and care information only.

406.

Create a behind-the-scenes video plan showing the making of [GARMENT / PRODUCT] from preparation to finished item.

407.

Create a size-guide explanation for [PRODUCT] that encourages customers to check measurements rather than rely on assumptions.

408.

Write a fashion care guide for [FABRIC] with cautious, label-dependent instructions.

409.

Generate 15 beauty content ideas about [TOPIC] that avoid medical claims and distinguish personal experience from professional advice.

410.

Create a responsible skincare content script about [PRODUCT TYPE], reminding viewers that suitability varies and patch testing or professional advice may be appropriate.

411.

Write a lifestyle routine post about [HABIT] without presenting personal preference as universal health advice.

412.

Create a product comparison for [ITEM A] and [ITEM B] based on material, use case, care, price and limitations.

413.

Develop a content plan for a small fashion business with limited photography equipment.

414.

Write a customer FAQ for [PRODUCT] covering sizes, materials, care, delivery and returns using only supplied policy details.

415.

Create a visual shot list for a premium clothing product photo session using [AVAILABLE EQUIPMENT].

416.

Generate 10 storytelling angles about the craft and process behind [BRAND / PRODUCT].

417.

Write a launch campaign for a new collection [COLLECTION] with teaser, reveal, styling, details and customer FAQ posts.

418.

Create a respectful response to a customer complaint about [ISSUE], with empathy and a clear next step.

419.

Create a content series explaining how to choose [PRODUCT] based on occasion, budget and personal preference.

420.

Review this fashion or lifestyle caption [CAPTION] for clarity, accuracy, inclusivity and unsupported product claims.

22 / NICHE ADAPTATION: FOOD, BUSINESS & LOCAL BRANDS

20 prompts · Replace bracketed fields with your own details.

421.

Create 20 content ideas for a food business [BUSINESS] targeting [CUSTOMERS]. Balance menu education, preparation, hygiene, service and ordering information.

422.

Write a short video script showing how [DISH] is prepared, with appetising but truthful descriptions and a clear order CTA.

423.

Create a menu item description for [DISH] using supplied ingredients [INGREDIENTS]. Do not invent dietary or allergen claims.

424.

Build a weekly content calendar for a local business [BUSINESS TYPE] with limited staff and time.

425.

Write a customer FAQ for [BUSINESS] using these verified details [DETAILS]. Flag missing opening hours, location or delivery information.

426.

Create a local brand introduction post explaining what [BUSINESS] offers, who it serves and how customers can enquire.

427.

Generate 15 behind-the-scenes content ideas for a small business that protect customer privacy and confidential information.

428.

Create a product photography shot list for [PRODUCT] using a phone and natural light.

429.

Write a customer testimonial post using this approved customer quote [QUOTE]. Do not alter its meaning or imply broader results.

430.

Create a promotional campaign for [OFFER] with clear eligibility, dates, terms and a non-misleading CTA.

431.

Build a content strategy for a service business [SERVICE] focused on educating potential customers before they enquire.

432.

Write a professional response to a negative review [REVIEW] that acknowledges the concern and invites resolution privately.

433.

Create a case study template for a small business project with brief, process, deliverables, verified outcomes and client permission.

434.

Generate 20 educational posts that answer common buyer questions about [PRODUCT / SERVICE].

435.

Create a seasonal promotion plan for [BUSINESS] that avoids false scarcity and clearly states offer conditions.

436.

Write a WhatsApp catalogue description for [PRODUCT] with concise features, price placeholder and ordering steps.

437.

Create a simple content-to-enquiry tracking plan for [BUSINESS] using tagged links or a source question.

438.

Suggest low-cost ways to collect customer feedback after a purchase without pressuring buyers.

439.

Create a brand storytelling script for [BUSINESS] based on verified founder and product details [FACTS].

440.

Review this local business social profile [PROFILE] for clarity, trust, discoverability and ease of contacting the business.

23 / RESEARCH, FACT-CHECKING & SOURCE QUALITY

20 prompts · Replace bracketed fields with your own details.

441.

Create a research plan for a post about [CLAIM]. Identify the exact facts to verify, preferred primary sources and date sensitivity.

442.

Fact-check this draft [DRAFT] against the sources I provide [SOURCES]. Mark each claim supported, unsupported, contradicted or unclear.

443.

List the questions I should answer before publishing a statistic about [TOPIC], including population, timeframe, methodology and source.

444.

Turn this official documentation [TEXT / URL CONTENT] into an original plain-language explanation. Preserve caveats and identify the document date.

445.

Compare these sources [SOURCE A, SOURCE B]. Assess authority, recency, evidence, conflicts of interest and what each actually supports.

446.

Identify claims in this script [SCRIPT] that need citations or qualification. Do not invent references.

447.

Create a source log template with claim, source title, publisher, date, URL, relevant passage and verification status.

448.

Summarise this research [MATERIAL] with key findings, limitations, uncertainties and practical implications.

449.

Explain the difference between correlation and causation using [EXAMPLE] in language suitable for a social media audience.

450.

Create a responsible news explainer about [EVENT] using only verified information supplied. Separate confirmed facts from developing reports.

451.

Check whether this product claim [CLAIM] is supported by the supplied specification [SPEC]. Explain what cannot be concluded.

452.

Create a checklist for evaluating online tutorials about [TOPIC], including author expertise, date, evidence and safety.

453.

Identify outdated steps in this tutorial [TUTORIAL] and list what must be rechecked against current official documentation.

454.

Write a balanced explainer on [CONTROVERSIAL TOPIC] that fairly represents credible positions and distinguishes fact from opinion.

455.

Create a fact-checking workflow for AI-generated visuals that contain text, labels, logos or technical diagrams.

456.

Review this caption [CAPTION] for numerical claims, superlatives, guarantees and claims that could mislead consumers.

457.

Turn these source excerpts [EXCERPTS] into a concise evidence-backed carousel outline with a source note for each factual slide.

458.

Create a correction log for published content, including original claim, correction, date, reason and audience notification.

459.

Generate a list of questions to ask an expert about [TOPIC] before producing educational content.

460.

Assess whether this topic [TOPIC] requires a qualified professional review before publication and explain why.

24 / ACCESSIBILITY, INCLUSION & RESPONSIBLE CREATION

20 prompts · Replace bracketed fields with your own details.

461.

Review this post [POST DESCRIPTION] for accessibility. Suggest alt text, caption improvements, contrast checks and plain-language alternatives.

462.

Write concise alt text for this image description [DESCRIPTION], focusing on relevant information rather than decorative detail.

463.

Create captions for this spoken script [SCRIPT] with accurate wording, speaker labels where needed and meaningful sound descriptions.

464.

Rewrite this explanation [TEXT] in plain language without removing important technical meaning.

465.

Review this content [CONTENT] for stereotypes, exclusionary assumptions and unnecessarily judgemental wording.

466.

Create an inclusive example set for [TOPIC] that reflects different experience levels and contexts without tokenism.

467.

Suggest accessible design rules for a carousel including type size, contrast, spacing, reading order and colour-independent cues.

468.

Write a content warning or context note for [TOPIC] where it is genuinely useful, without sensationalising the subject.

469.

Create a checklist for obtaining consent before filming or publishing identifiable people in [SETTING].

470.

Review this AI image brief [BRIEF] for risks of misleading representation, identity misuse or unlicensed reference material.

471.

Create a responsible giveaway announcement with clear eligibility, deadlines, selection method and platform disclaimer placeholders.

472.

Write a transparent sponsorship disclosure for [POST TYPE] that is clear before the audience engages with the promotion.

473.

Create a privacy-safe way to share this customer story [STORY] by removing identifying details and securing permission.

474.

Suggest ways to make a tutorial usable for viewers with limited equipment, slower internet or different skill levels.

475.

Review this post for potentially harmful advice in [FIELD]. Recommend safer framing and when to direct viewers to qualified help.

476.

Create a checklist for using music, footage, fonts and images legally in [PLATFORM CONTENT].

477.

Write an accessible transcript summary for a video about [TOPIC] that preserves key information.

478.

Develop community rules that support respectful disagreement and protect members from harassment.

479.

Create a checklist for responsible AI disclosure when synthetic images, voices or video are used.

480.

Review this content plan [PLAN] for privacy, consent, copyright, safety and audience trust risks.

25 / LAUNCHES, CAMPAIGNS & PROMOTION

20 prompts · Replace bracketed fields with your own details.

481.

Create a 10-day launch campaign for [PRODUCT] aimed at [AUDIENCE], with education, demonstration, objections, launch and follow-up.

482.

Write a teaser campaign that builds curiosity about [PROJECT] without making false claims or hiding essential terms.

483.

Create a launch announcement for [PRODUCT] with exact contents, price, audience fit, delivery and limitations.

484.

Build a product demonstration script showing how a buyer uses [PRODUCT] to complete [TASK].

485.

Create a FAQ post answering likely objections to [PRODUCT] honestly, including who should not buy it.

486.

Write three promotional angles for [OFFER]: problem-led, process-led and outcome-led. Keep all claims supportable.

487.

Create a launch email sequence for [PRODUCT] with subject lines, useful content and clear opt-out expectations.

488.

Plan a live product walkthrough for [PRODUCT] with agenda, demonstration, questions and technical backup.

489.

Create a launch checklist covering checkout, delivery, mobile testing, support, refund terms and tracking.

490.

Write a post-purchase welcome message explaining how to access and use [PRODUCT].

491.

Create a post-launch survey to understand what buyers used, what was confusing and what is missing.

492.

Design a referral request for satisfied customers that is optional and transparent about any reward.

493.

Create a campaign calendar for a limited-time offer [OFFER]. Clearly state real start and end dates and conditions.

494.

Write a comparison post explaining how [PRODUCT] differs from free alternatives without dismissing those alternatives.

495.

Create a behind-the-scenes launch story showing how [PRODUCT] was built, including real constraints and decisions.

496.

Develop a plan to collect and publish testimonials with permission and without editing them misleadingly.

497.

Create a post-launch analysis template covering traffic, checkout conversion, purchases, refunds and customer feedback.

498.

Write a respectful abandoned-checkout reminder that does not imply surveillance or use pressure tactics.

499.

Create a relaunch plan for [PRODUCT VERSION] based on verified customer feedback and clearly stated improvements.

500.

Build a campaign asset checklist for reels, stories, carousel, email, sales page, FAQ and customer support.

CREATE WITH INTENTION.

USE AI WITH JUDGEMENT.

The strongest result comes from a clear brief, reliable information and your own creative direction.
