AUSAD CREATIVES
Premium Brand Templates

Quick guide • Asset 07 of the Creator Growth Kit

What is included

An editable square-post template deck with 12 content layouts, plus a separate vertical story deck with 5 layouts. A visual style guide and pre-publish checklist are included in the square deck.

How to customise

1. Open the PPTX in PowerPoint, Keynote or a compatible presentation editor.
2. Replace every bracketed placeholder with your own copy.
3. Replace image frames with original, licensed or permission-cleared images.
4. Update the handle, logo, CTA and brand colours.
5. Export each finished slide as PNG/JPG and preview it on a phone before posting.

Recommended content structure

Lead with one clear promise. Support it with one idea, example or proof point. Finish with one relevant action. Avoid putting several unrelated messages on one graphic.

Responsible use

Use real testimonials only with permission. Verify statistics and claims. Do not imply guaranteed outcomes. Respect image, font and music licences. Keep private customer information out of public designs.

Suggested brand tokens

Token	Suggested value
Charcoal	#111111
Warm gold	#C69F58
Warm ivory	#F6F2E9
Dark taupe	#1D1B19
Typography	Aptos Display / Aptos or similar clean sans serif
